Our strength lies in executing turnkey projects that seamlessly transform client visions into functional, aesthetically designed environments. Backed by experience, precision, and a client-first approach, we consistently deliver spaces that reflect both purpose and excellence.

## COMPANY POLICY

At S R Interior Projects, quality and client satisfaction are our top priorities. To maintain the highest standards in every aspect of our work, we limit ourselves to a maximum of five projects per calendar year. This focused approach allows us to dedicate our full attention and resources to each project, ensuring timely execution and exceptional results.

We strictly do not take on new projects until the ongoing one is fully completed. Upon completion, we require a Work Completion Certificate from the client as a formal acknowledgment of successful delivery.

As per our financial policy, we request an advance payment along with the work order. The advance amount varies depending on the scale of the project, as we make upfront payments to our vendors—typically no less than 50% of the total invoice value. This ensures smooth workflow and uninterrupted progress throughout the project lifecycle.

## QUALITY POLICY

Our long-term success is built on our unwavering commitment to continuously improving the quality of our services while ensuring the safety of people and the protection of the environment. We place strong emphasis on human health, operational safety, environmental responsibility, quality enhancement, and fostering goodwill within the communities where we operate.

We uphold a proactive and accountable approach to Quality, Health, Safety, and Environment (QHSE) across all levels of our organization. Every employee and contractor is expected to actively participate in maintaining and promoting these standards.

Our management team leads by example, ensuring clear communication, consistent implementation, and full compliance with all QHSE policies and procedures. This commitment not only supports our clients and workforce but also strengthens the communities we serve.

At S R Interior Projects, we are dedicated to consistently meeting—and exceeding—our clients' expectations by upholding the highest standards in quality, health, safety, and environmental performance. Our commitment is reflected in the following principles:

- Prioritizing the health, safety, and security of our people at all times.
- Striving for zero quality non-conformances and eliminating HSE incidents.
- Continuously enhancing the skills and performance of our vendors and subcontractors.
- Setting measurable quality and HSE objectives, tracking performance, and driving continuous improvement through an effective management system.
- Proactively planning for, responding to, and recovering from emergencies, crises, and business disruptions.
- Minimizing our environmental footprint by preventing pollution, reducing natural resource consumption and emissions, and promoting waste reduction and recycling.
- Integrating HSE principles into the design and engineering of our services and solutions.
- Focusing on global environmental and safety challenges where we can make a meaningful impact—and sharing our knowledge and successful QHSE practices with industry peers and stakeholders.
